

Accelerated Reader Program

It's Accelerated Reader time again! We are looking forward to a new and exciting school year helping your child gain a love for reading!

Our emphasis this year is to get our students to compete with themselves! The AR program has been given a little boost with a few changes. The first change is the addition of an AR “store”. Students may visit the AR store during the second and fourth nine weeks to purchase items according to the number of AR points they have earned. AR Point Parties will be held during the first and third nine weeks.

Another change to the AR program is students will receive an AR t-shirt when they earn the required number of points. The required points per grade are:

1st Grade – 40 points

2nd Grade – 75 points

3rd Grade – 100 point

4th Grade – 150 points

5th Grade – 200 points

Additionally, students who earn 50 points over the required number of points will receive a certificate of achievement.

The final change in the AR program is students will not be able to take tests before or after school in the library. In an effort to better utilize the computers in the library the computers have been moved. Students may take AR test from 7:30 – 2:30 in their classrooms.

Thank you for your continued support. We welcome any donations of items to the AR Store. We look forward to a successful and rewarding year of student participation in the AR program as they gain a love for reading.
